

We listen to K-LOVE on FM 94.7. It is the only radio station that we listen to. Most of the radio stations in our area play music with suggestive lyrics and the "shock" jocks just get more bold with their inappropriate language. K-LOVE is the only choice for families who do not want their children listening to junk. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, our community would lose the only positive and encouraging radio station in our area. My 3 three year old loves K-LOVE!
